Our Comments

This is a rather fair investment opportunity.

The Gap Group Plc bond is a five-year bond with a possible call as from three years after launch. This bond is considered of short to medium term duration and which investors should find sufficiently attractive as global interest rates have increased due to sharp inflation.

This bond carries an acceptable coupon of 4.75% for a partly secured bond especially when compared with other local bonds, even those with a longer term. This coupon rate may be considered adequate when considering the relatively short duration and the medium/high risk associated with investing in this bond. This bond is also partially Secured, and such features provide added comfort to Investors.

The Group's balance sheet as at 31st December 2021 included total assets amounting to €112 million. Liabilities principally include debt securities of €69.0 million, while bank loans and other financial liabilities amount to €6.9 million. Shareholders' equity as at 31st December 2021 amount to 21.5 million compared to €15.1 million a year earlier.

Gearing already stands at a high level of 60%, but expected to register a slightly higher level of 64% by end 2022. Interest Cover is healthy at 12 times which is also very encouraging.

It is expected that this bond will be over-subscribed, however Finco has entered into a Pre-Placement Agreement with the Issuer so as to be in a position to allocate its client applications in full. It is recommended to inform Finco telephonically immediately, on Tel: 21220002, should you have interest to invest, as this issue will close 21st December 2022

<u>General Recommendation</u>: Subject to the consideration of the circumstances of each Investor, Finco issues a BUY recommendation to clients to this bond, provided always that the holding is part of an overall well diversified portfolio.
