Short Term Investment Opportunity

We would like to bring to your attention a remunerative risk-free opportunity which may have escaped your attention.

Now that interest rates have risen very substantially over the past 18 months, one can now invest in **Malta Government Short Term Treasury Bills** which offer returns of circa 3.25% per annum for both 3 months and 6 months investment periods.

Such investments are particularly suitable for clients who wish to employ their capital for short - term periods pending utilisation for property contracts or other purposes. Government Treasury Bills are **Safe - No Risk at all**. This is a much wiser alternative to leaving idle money in a bank account or in a low interest rate term deposit. When the Treasury Bill matures, say after 3 months, one can rollover into another new Treasury Bill or withdraw the capital.

Minimum Investment €50,000

Tax paid at source just like a bank account

Indicative Gross Return 3.25% per annum

Any clients interested and wish to learn more about Malta Government Treasury Bills are kindly invited to contact Ivan Grech on Tel: 2122002 or write to ivangrech@fincotrust.com
